10. Weather

	Question	Answer
1	Name at least ten things you see in the picture.	Mountains, telephone lines, cactus, sun, snake, house, fence, garden, road, bird
2	Which things are made by nature?	Sun, mountains, cactus, garden, snake, bird, bug, adobe mud from which the bricks of house were made, land
3	Which things are made by people?	Car, house, road, telephone wires, clothing, glasses, cup
4	What do you see in the picture that indicates the type of weather that might be occurring?	People are wearing shorts, showing that it's warm. Also, the people seem to be living in a desert.
5	In which direction are the mountains located in this picture?	Northwest
6	This house is made of adobe brick and is only one story high. Why do you think this type of home might be good for the desert climate?	The adobe bricks keep the inside of the house cool. Since the house is only one story high, the heat can't rise, so the house stays cooler in the desert heat.
